Statement in Soviet note re high altitude flights in Berlin corridors (Moscow's 2160 repta Paris 375) that our justification unfounded because flights depart from "established practice" which cannot be changed "without agreement of other side" to citing in connection with one facet of Berlin problem veiled argument which Soviets have generally disregarded in their discussion of status Berlin and in their threat withdraw from Berlin occupation functions. Believe there might be some possibility exploiting this slip if could be done without calling justification high altitude flights into question.
